### LAST CALL FOR REGISTRATION

Registration ends **September 9**

Please contact Kris Swank at [kswank@purdue.edu](mailto:kswank@purdue.edu)  
or 765-494-4674 if you have questions.

### LATE-BREAKING ABSTRACTS

**Five available spaces for late-breaking abstracts**

Abstracts for poster and oral presentations related to breast cancer prevention regardless of the discipline studied, as well as abstracts related to any of the topics of the four sessions chosen this year are still being accepted.

This multidisciplinary symposium on breast cancer prevention that focuses on epigenetics, nutrition and public policy is organized by the International Breast Cancer and Nutrition (IBCN) group initiated at Purdue University, USA (<http://www.purdue.edu/dp/oncological/ibcn.php>) in partnership with the French School of Public Health (EHESP) in Rennes, France. This initiative recognizes that different countries have unique perspectives which would benefit a sustained international effort to prevent breast cancer, and that the education of trainees in cross-disciplinary and international collaboration is an essential component in addressing global public health-related issues. The goal of this symposium is to bring together global public health actors and advocates, and researchers on breast cancer prevention and nutrition to provide a platform for discussion among scientists, clinicians and other professionals in the biology, epidemiology, medicine, nutrition, communication, education and public policy fields.

#### Sponsors for the 2011 IBCN Symposium

International Breast Cancer & Nutrition (IBCN) • Purdue Center for Cancer Research  
Oncological Sciences Center, Purdue Discovery Park • Center for Public Health Policy Analysis (CAPPS)  
EHESP • Rennes Metropole • Conseil Régional de Bretagne • Purdue Global Policy Research Institute

*IBCN acknowledges the Purdue Global Policy Research Institute and  
Entrepreneurial Leadership Academy for their support and partnership*
